#### How's it going? I hope you're well.

I just want to tell you about my visit to England.

I traveled to England two weeks ago. I like England, but there are lots of things I miss about Egypt – the warm, sunny weather and the food! English food is OK but Egyptian food is better! For example, for breakfast a lot of English people eat sausages, eggs (fried or boiled) and toast. I really miss my favorite Egyptian breakfast, ful medames

a-Scientists say bad weather can have a negative effect on your feelings. When the sky is dark and it is wet outside, some people start to feel low. They often have a sudden change of mode from happy to sad. Windy weather can make some people and animals feel nervous, or restless. If your mode changes in bad weather, switch on more lights in your home when it rains. Another good idea is to go for a walk outside.

b-The weather where we live affects the activities you can do. If it is a hot day you may decide to go for a swim. If it is snowing, you could choose to build a snowman. Sometimes your plans have to change because of the weather. For example, if you plan to play football in the park with your friends and the it starts to rain, you need another plan.

## Writing Skills - Unit 1

#### The community garden

We work in the community garden on the roof of an apartment block. We grow vegetables and fruit for people in the local area, and sometimes we sell them, too. We think the community garden is a good idea because the plants also help to clean the air in the city, and the garden project is a good place to make new friends.

#### What is Mini Forest?

Mini Forest is an organization which plants small areas of trees in the middle of our cities. These special green areas help people enjoy nature and help our **wildlife** - like plants, animals and other living things. At Mini Forest, we **always** work hard to find the best urban locations for our forests, where people and wildlife need nature most. We also **usually** work with local communities to plant and look after the forests over time.

## Your favorite place and what you miss there

I was there in New York. Our apartment block is on the sixteenth floor, so we have a great view. New York has a lot of green spaces. I was there for a week. I went with my family. I went by plane. There are lots of different restaurants here, and the food doesn't taste like the food at home. The Alexandrian restaurants are better. I think the food is fresher and tastes more delicious. I miss Egyptian food so much!

## Writing Skills - Unit 2

#### Describe a student in your class

Ahmed is my friend. He is friendly, kind, and funny. He has short brown hair and he is helpful. He is very nice. He always helps people. He is very funny. He makes me laugh all the time.

#### **El Fouad School**

We are proud of our new, modern buildings and we're happy to show them to you. This is the place where students study science. There are four classrooms and two new laboratories. This is a large open area where students have recess. There is a playground and playing field. There are also benches to sit on under the trees and a water fountain if you feel thirsty.

#### **Cats Are the Best Pet**

Cats are my favourite animals and I think they make the best pets. They are beautiful with soft fur which is nice to touch. They are clean and calm animals which are usually friendly. They like people but they are independent, so you don't need to take them for a walk every day. It is true that cats have sharp claws and teeth, but they only use them when they are scared. People also say that when you pet a cat, it makes you happy, so they are good for your well-being too.
